EXPERIENCE

MEDOC

Backend Developer

July 2024 - Current, Remote

- Integrating UHI and ABHA with secure APIs to enhance health data interoperability and user access within our application.

Accenture - Forage

Development and Advanced

Jun 2024, Remote

Engineering Job Simulation

- Developed API endpoints and oversaw codebase management for client projects, ensuring efficient functionality and scalability amidst rapid growth.
- Implemented Jenkins for Continuous Integration, automating testing and ensuring seamless code validation with each push. Orchestrated Agile sprint cycles to prioritize tasks, align team efforts with project goals and optimize workflow efficiency and deliverables.

BLOKMINERS

Full Stack Developer Intern

Jan 2023 - Apr 2023, Remote

- Engineered an admin dashboard for one of the biggest NFT Marketplaces in India. The marketplace admin will use this admin panel to launch and manage the NFTs in the market.
- Collaborated on a MERN stack E-commerce platform for event ticketing, facilitating ticket bookings across various events and enabling user registration and ticket sales. The platform successfully processed over 4000 ticket bookings post-deployment.

Projects

Outpass Generator

Flutter, NodeJs, ExpressJs, MongoDB

[link](#), Apr 2023

- Developed a web and mobile app for out-pass generation for hostel students, integrating cloud storage; transitioned from a manual to a digital system, reducing approval time by 50% and cutting paperwork by 80%.

Social Media Backend

NodeJs, ExpressJs, PostgreSQL

[link](#), May 2024

- Built a backend for a social media platform with robust authentication and authorization features. Implemented full content management capabilities, including user interactions such as likes and comments, to enhance functionality and user engagement.

HealthFul

ReactJs, HTML, CSS, ExpressJs

[link](#), May 2024

- Built a website that recommends diet plans based on calorie count. It is full stack application having both frontend and backend separately deployed.

SKILLS

Language	C++, JavaScript, Python, Java, Rust
Back End	ExpressJs, Java Spring Boot
Front End	ReactJs, NextJs, HTML, CSS, Tailwind
DBMS	MySQL, PostgreSQL
OS	Linux, Windows
DevOps	Docker, GitHub, Jenkins
Misc.	AWS, Azure, Postman, Git
Soft Skills	Resilience, Dedication

EDUCATION

Chandigarh

University

Chandigarh, India

(2021 - 2025)

Bachelor of Engineering Computer Science and Engineering with specialization in Cloud Computing.

GPA: 8.48/10

Bankura

Municipal High

School

Intermediate

West Bengal, India

(2018 - 2020)

Score: 92.20%
