WORK EXPERIENCE

BLOKMINERS proof   Remote

Full Stack Developer Intern   Jan 2023 – Apr 2023

- Developed an admin dashboard for one of the biggest NFT Marketplaces in India. This admin panel will be used by the marketplace admin to launch and manage the NFTs in the market.
- Developed a MERN stack E-Commerce platform for event ticket purchasing. This application will be used to book tickets for different types of events. Users can also register for their events and sell the tickets on that website. More than 4000 tickets were booked after deployment.
- Worked in the team developing an internal management system for a company which helped them to manage their accounting information.

INTEL AI FOR YOUTH proof   Remote

Mentor   Aug 2022 – Sep 2022

- Mentored school students in the field of Artificial Intelligence and Machine Learning. Successfully hosted a workshop having more than 150 students.
- Evaluated and guided 15+ project ideas done by the students from 7th standard.

PROJECTS

OUTPASS GENERATOR link   Apr 2023

- Built a web and mobile app which can generate outpass for students residing in hostels and save then in cloud database for different checking methods. This system moved the existing manual process to digital system.
- Optimized the manual generation process and decreased the time by up to 4-5 times.

HEALTHFULL link   Jun 2023

- Developed a website that recommends diet plans on the basis of calorie count. It is full stack application having both frontend and backend separately deployed.

PORTFOLIO WEBSITE link   Dec 2022

- Developed a portfolio website using ReactJs, tailwind.

ADDITIONAL
